Drinking Water Fluoridation Training

Date: December 5-6, 2019

Time: 8:00 AM – 4:00 PM

Place: Washington County Service Authority

25122 Regal Drive, Abingdon, VA 24211

The VDH Drinking Water Fluoridation training is designed to educate plant operators in all aspects of proper community water fluoridation. The two day course includes hands-on laboratory activities, calibration exercises, fluoridation costs analysis, and safety demonstrations. The national guidelines, research and implementation of the community water fluoridation practices will be reviewed.

The course is designed for Water Plant Operators of systems that currently fluoridate or that will fluoridate in the future. The instructors of the course possess extensive knowledge of the principles of water fluoridation. The course will be conducted by a panel of experts from related fields including: dentistry, water plant operations, and engineering.

Cost: \$50 per person *(lodging included if needed)*

Register: <https://vaawwa.org/events/2019fluoridationtraining>

Note: The course has been approved for 13 CPE hours upon the completion.

For more information, please contact Geneva Hudgins at 434.386.3190 or geneva.hudgins@vaawwa.org.
