

# Webinar: Addressing Aging Infrastructure Challenges for Water/Wastewater Utilities

**December 3, 2020, 11:30 am to 1:00 pm**

In an era of aging infrastructure and mounting pressure to maintain a high level of service without raising rates, water and wastewater utilities are constantly seeking effective approaches to manage their existing assets. This webinar will present multiple case studies that utilities in Virginia have taken to better manage their assets, both buried and vertical. These studies include:

- Pipeline analytic approaches
- Condition assessment and CIP Planning
- Predictive Maintenance and Reliability Program
- Cross-departmental Asset Management implementation

This on-line webinar is sponsored by the VA AWWA Education Committee.

Register online at [www.vaawwa.org](http://www.vaawwa.org) via credit card by December 3, 2020.

**Costs:**

- **Member \$15.00; Non-Member \$20.00; \$65 Group Fee. (Includes CPE credits for up to 6 attendees)**

**Certificates for 1.5 CPE credits will be given to attendees (pending approval).**
